IMPORTANT INFORMATION ABOUT CLASSES AT FIRST PARISH CHURCH

*Please read **all** of the following information about dance classes at First Parish Church.*

The side door is our only entrance and exit. (The only exception is the High School and adult classes which can leave by the back door at the end of class at 7:15). This protects the church offices from the general noise of lots of people coming and going. Years ago, before the church was renovated, the side door was the only door.

Please drive *very slowly* and *carefully* as you leave the parking lot. Children are leaving the building, and the space by the side door is very tight. Also, all children should leave the church with an adult, making sure they don't run into the driveway.

First Parish has also asked that no unsupervised children be allowed to roam in the church, especially the preschool rooms. I know it is hard to wait in a hallway with children for dance class to finish. However, please do make sure that your children stay with you in the hallway. Thank you. I appreciate it.

Please do not park in staff, handicapped, and clergy parking spaces. Meetings are held throughout the day and night; even stopping in these spaces for a few minutes could create resentment. There are plenty of spaces to the back.

Please, the church requests that there be no parking in front of the church.
